

## **Vision and values update (April 2019)**

We are happy with our mission statement 'Learning today for living tomorrow' but our Governors, along with our education consultant Pat Eccles, recently reviewed our website and felt that in the light of our curriculum review we should take a closer look at our current vision and values to consider whether they still provided a vision that matched our curriculum. We started by asking ourselves what we wanted the children to 'be' at our school, after they leave, ready for the next stage of their education and in life after education

- Independent learners
- Community awareness
- Resilient (ability to cope with life's ups and downs)
- Fulfilment (in whatever aspect of work the children choose to pursue)
- Good choices (law abiding)
- Perseverance
- Aspirational (be the best you can)
- Responsible citizens
- Well mannered
- Philanthropic
- Tolerant (accept and celebrate differences in culture and religion)
- Awareness of where they came from (William Alvey's legacy and British Values)
- Sense of family within the school
- Nurturing
- Tolerant and understanding (relationships)
- A healthy lifestyle, achieved by eating sensibly, avoiding smoking, drugs and alcohol and exercising regularly. We want our children to feel confident enough to find an activity or sport that they are keen to continue with outside of school
- Respect
- Supporting others
