## Year 1 Trip to Woodside

On Tuesday and Thursday of this week our Year 1 children visited Woodside Wildlife Centre. They were amazingly well behaved and had a super day.

## Headlice

Please can you double check your child's hair for headlice. The best advice is still a 'Nitty Gritty' comb and hair conditioner. Wash and then leave conditioner in, comb through and then wipe comb on toilet paper, checking for headlice and eggs. Repeat every two days for a week until nothing is left on the toilet paper.

## E-safety Reminder

Most mental health workers accept that the rise in use of social media is directly linked to the rise in mental health issues identified in children and teenagers. Social media sites have an age limit in order to ensure that young children aren't exposed to the pressures that can arise from constant messaging and the sharing of inappropriate content.

# Science Spot

**Exciting learning in Y5:** This term Y5 have been learning about life cycles, and watching very closely one of the most exciting transformations. Paige explained: *In Mrs Reynolds' classroom we will soon have butterflies. They are in there because Year 5 are learning about life cycles of living things. We are looking at the stages of a butterfly. When we first got them they were small caterpillars in a container - they had food to eat. Over the course of a week, they had grown huge and at the weekend there were not caterpillars there but an amazing surprise...They were cocoons dangling from the top of the container. Four dangling from the top of the lid and one cocoon was not sticky, so it fell, but it is still going to hopefully live. In about a week there should be butterflies in our classroom.*

*Did you know? Caterpillars, while in their cocoons, turn to a liquid and the liquid reforms into a butterfly?*

*Above: the caterpillars feeding in the tubs.*

*The cocoons which the Year 5s found on Monday morning. They are eagerly watching for the moment the beautiful butterflies emerge.*
