## Challenge

The owl is the symbol of our school. But can you draw an owl?

## Science Spot

Mad Science Club: The Mad Scientists have apologised for the duplication of one of their sessions. Unfortunately, Sonic Shireen was experiencing car problems and couldn't get to Sleaford, so DNA David filled in for her at the last minute, but only had the kit with him to deliver a session which the children had already had. However, to rectify this, they will be running a replacement session on Thursday 19th May, in Mrs Francis' classroom.

After school CSI Club-Pulse Education: We have had a very enthusiastic response to the Forensic Science assembly run by Pulse Education last month and have had over 40 budding scientists sign up for the after-school club. Letters will be going out to confirm places and to give more details.

## **Curate's Corner**

Yesterday, the Church celebrated the Feast of the Ascension, when Jesus went into Heaven after his Resurrection and he promised us that he would send the Holy Spirit. This time between Ascension and Pentecost, then, is a time when we reflect on the theme of waiting for God's promises. If you would like to know more about Pentecost, join us at St Denys on Saturday 14th of May for a morning of craft and fun.

Father Ruben.

## **E-safety**

In school we have a filter system that all our computers use. This system filters out the majority of websites and searches that are not appropriate for use in school.

We also run a security programme 'Securus' on all the children's laptops. This enables us to monitor every aspect of a pupil's work including searches used, websites accessed and any inappropriate language used in communications.

Our E-safety committee reviews every incident of internet use that we feel contravenes safe use and then we take remedial action.

In an effort to get the children to understand what is safe internet use, we also teach the children how to deal with anything that makes them feel uncomfortable whether it is at home or in school.
